Final Logistics

- **Contributions talks and posters will be online and please upload them ASAP via IBWS web via my profile my asbtracts upload**

Papers will be published by CAOSP (WoS journal), details on the worskhop web, <https://ibws.cz/index.php/special-issue/> deadline June 30 , 2023

- **Selected conference photos are online, link at the conference web page (Galery)**

Future of IBWS workshops

Last 12 years as regional high energy astrophysics workshop mostly Czech German but with increasing participation from other countries

- Last 9 years with small satellite day/session**
- Questions: Move to other interesting Czech cities? Keep location close to German border? Teplá monastery hotel? Better focus on more narrow particular field of astrophysics or satellite technology? 2 parallel sessions?**
- Satellite session with focus on Large HE satellite projects.**
- What we want to keep for sure: wide participation of students i.e. low-cost workshop, enough time for discussions, social activities, dining together**

Future II

- But: IBWS2024 is expected to be organized as AHEAD2020 workshop/summer school we hope to be able to support participation of students

Many thanks to

- LOC members Veronika, Martin and Ondřej
- Jirka Kašpárek for coffee breaks and minivan driving
- Veronika S. for translating
- Staff of Karlovy Vary Observatory
- Staff of Regional Library KV
- Our sponsors and partners
- Franco Giovannelli for accepting not easy task concluding remarks
- All participants for pleasant and productive atmosphere

The End

- **Thanks for coming, have a safe trip home and see you at the 18th IBWS conference April/May 2024 (TBC)**
