Final Logistics

- **Contributions talks and posters are online**
Papers will be published by Astronomical notes
(IMPACTED WoS journal), details on the
workshop web under SPECIAL VOLUME
deadline strict. Contact Martin Jelinek

More conference photos are online, link at the
conference web page (Galery)

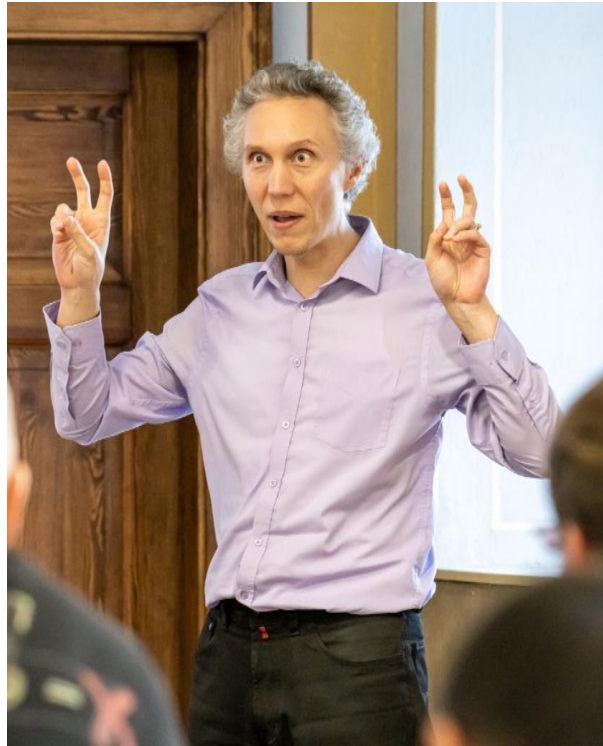

Future of IBWS workshops

- Last 14 years as regional high energy astrophysics workshop mostly Czech German but with participation from other countries such as Hungary**
- Last 12 years with small satellite day/session**
 - Questions: Move to other interesting Czech cities? Keep location close to German border? Move to Bavaria ? Better focus on more narrow particular field of astrophysics or satellite technology?**
 - What we want to keep for sure: wide participation of students i.e. low-cost workshop, enough time for discussions, social activities, dining together**

Many thanks to

- **LOC members Veronika, Martin and Ondřej**
- **Jirka for coffee breaks and minivan driving**
- **Ondrej for taking pictures**
- **Staff and manager of Capuchin monastery**
- **Our sponsors and partners**
- **Thomas for accepting not easy task concluding remarks**
- **All participants for pleasant and productive atmosphere**

Vlada - Highlights
